

H2W Grade-A Sodium-Ion Battery

- Manufactured with grade A sodium-ion cells, it ensures excellent cycle expectancy under varied and high loads.
- Suitable for domestic use and home inverters

**3,000 - 6,000 cycle Times @
different DOD 8 years lifetime**

12V 200Ah Sodium-Ion Battery

Low - cost materials and the abundant availability of sodium

High
Performance

Environmentally
Friendly

Cost
Effective

Enhanced
Safety

12V 100Ah Sodium-Ion Battery

Low - cost materials and the abundant availability of sodium

High
Performance

Environmentally
Friendly

Cost
Effective

Enhanced
Safety

High Performance in Extreme Temperatures

Excellent Capacity & Energy Retention Rates

**12/24v 200/100Ah 2480Wh
Sodium-Ion Battery**

**12v 4-100Ah 60-1500CCA
Sodium-Ion Battery**

Outdoor Back Up

Laptop(58.2W)

41.2 Hours

Electric Grill(1000W)

2.4 Hours

Portable Freezer(45W)

53.2 Hours

Hair Dryer(1875W)

1.2 Hours

Foldable Kettle(700W)

3.2 Hours

Blender (1000W)

2.4 Hours

Home Back Up

Coffee Maker (1000W)

2.4 Hours

Microwave(700W)

3.4 Hours

Refrirator(360W)

6.6 Hours

TV (105W)

22.8 Hours

Washing Machine(1200W)

2 Hours

Air Fryer(1000W)

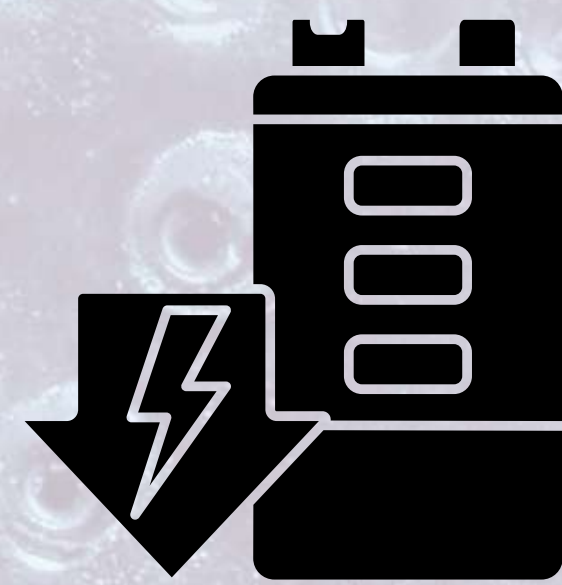

2.4 Hours

Reliable BMS System | Ultra-Safety

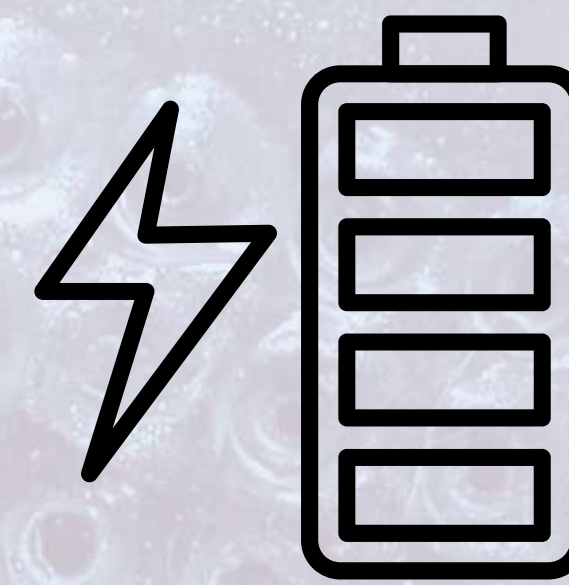

Our internal Battery Management System (BMS) offers comprehensive protection for the battery and ensures advanced management of charging and discharging.

**Charge
Protection**

**Discharge
Protection**

**Battery Cell-
Balancing**

**Thermal
Management**

**Data
Transmission**

**For detailed parameters of the BMS, please contact our team on
info@dafeenergy.com**

***Note: This image of the BMS is for reference only. The specific model and batch
may vary. Please refer to the actual product for accurac**

SCALABLE FOR LARGE-SCALE PROJECTS

Golf Cart

RVs

Trucks

Boats

Caution

Do Not

**Reverse Connections
from Charger to
Battery**

**Throw into Fire
or Incinerate**

Short Circuit

Disassemble

**Heat above 80
°C**

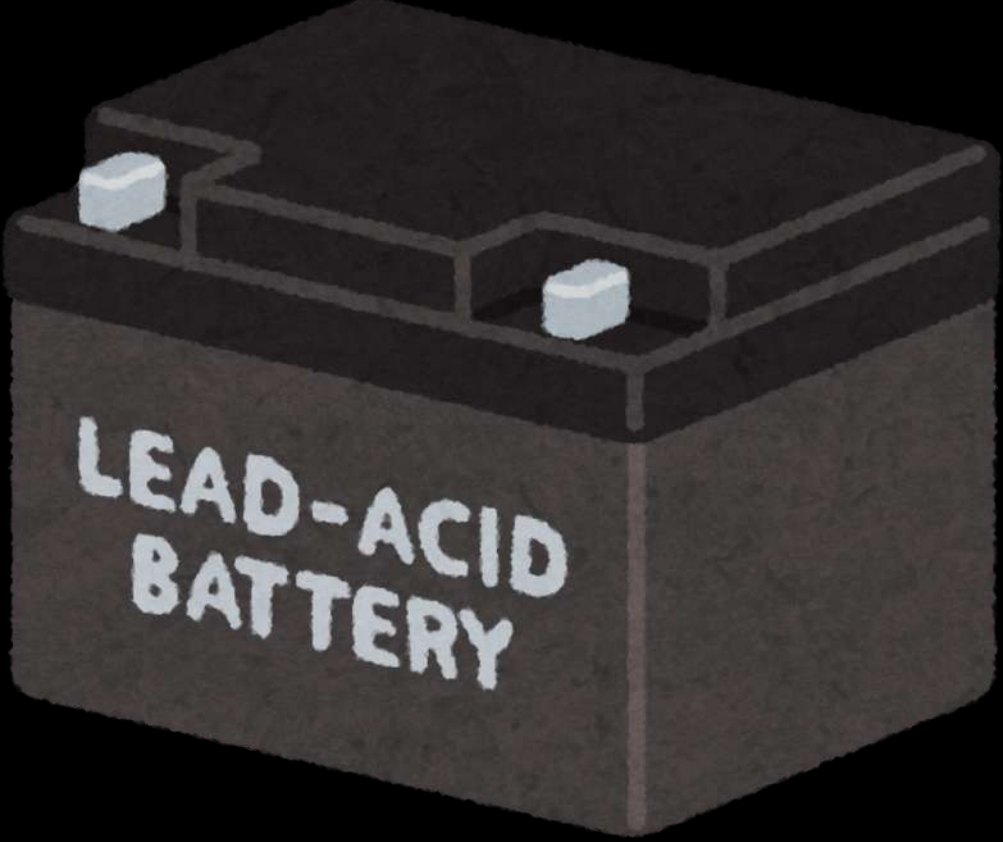

Series/Parallel Tips

- **The same model (capacity & voltage & BMS)**
- **The same brand**
- **Recent purchases (within 3 months)**

Sodium-Ion Battery VS other

10 Reasons You Should Purchase our Sodium-Ion Batteries

	Sodium-Ion Battery	LEAD/AGM/SLA	Lithium ion Battery
			
Environmentally:	HIGH	LOW	MEDIUM
Cost Effectiveness:	HIGH	LOW	MEDIUM
Operation Temperature Range:	HIGH	MEDIUM	MEDIUM
Voltage Range:	HIGH	LOW	MEDIUM
Security:	HIGH	HIGH	MEDIUM
Zero voltage Transportation:	YES	NO	NO
Low Temperature Performance:	GOOD	NORMAL	LOW
Cycle Life:	HIGH	LOW	HIGH
Energy Density:	MEDIUM	LOW	HIGH
Scope of Application:	HIGH	LOW	MEDIUM

3 Ways to Recharge The Battery

Please make sure your charger supports Sodium ion Battery
Due to the difference in charging voltage, it is recommended to choose only one method of charging at a time.

Generator

Add a 20A DC to DC Charger:
5hrs

Charger

12V 20A Sodium ion Battery
Charger: **5hrs**

Solar Panel + MPPT

Recommend $\geq 400W$ Within
1 sunny day
